2N® EasyRoute: Check out our new product video

This video describes the many features of the UMTS/3G Wi-Fi Router **2N® EasyRoute**. You can find the video on our official [2N video channel on YouTube](#). Together with its WAN port it allows you to create a reliable back-up solution via UMTS for ADSL connection, V-SAT, ATMs or payment terminals. 2N® EasyRoute can also be used as a Prepaid Wi-Fi HotSpot solution that is ready to use with one click and even without any extra costs. For more information please contact our Marketing Product Manager, Tomáš Kotiš, kotis@2n.cz.

2N® VoiceBlue Next: New “How to” manuals for Alcatel and Siemens PBXs

Download our new [“How to” manuals](#) for 2N® VoiceBlue Next and find out how to easily set-up this gateway very easily with Alcatel OXO and Siemens HiPath 3000 PBXs. The manual [“How to set 2N® VoiceBlue Next”](#) will lead you to set-up the device in a few steps. All these manuals and many more can be found on our webpage faq.2n.cz.

2N® Helios IP: New firmware 1.11 release

- **2N Helios IP newly supports codec G.729** which has a lower computing demand and allows the customer to connect the 2N Helios IP to the operator's Centrex where G.711 is not available
- 2N Helios IP now offers management of up to 4 locks.

2N is using new feature of LinkedIn

2N is one of the first companies worldwide leveraging new feature of **LinkedIn**, Product & Services tab, which allows LinkedIn members to publish recommendations that are then linked to their professional profiles. If you like our products, [recommend us!](#)
