

Map a Network Drive - Windows

Learn how to access 2N Media Library files from your desktop using the file explorer in a Windows operating system.

Open a File Explorer

Open a File Explorer from a taskbar or a Start menu, or press the Windows logo key + E.

STEP
01

STEP
02

Map a Network Drive

Select "This PC" from a left panel. Then, on the "Computer" tab, select "Map network drive". In the Drive list, select any available drive letter.

STEP
03

Media Library's URL

In the folder box, enter „https://www.2n.cz/webdav/2n/document_library“ to configure a file browser that you prefer.

STEP
04

Finish Mapping

To connect every time you log on to your PC, select the „Reconnect at sign-in“ check box and then click "Finish".

STEP
05

Login Credentials

Enter the login credentials, e-mail and password, you use to access the 2N Media Library web interface.
