

# No more searching for a free meeting room with the 2N<sup>®</sup> MEETING ROOM APP

No more interrupted meetings. No more complicated inquiries to find out if a meeting room is free. Offer your customers the 2N<sup>®</sup> Indoor Touch 2.0 with the smart 2N<sup>®</sup> Meeting Room application. Give them an overview of meeting room occupancy and the option of reserving the room right away. All of this on a 7" touchscreen with an award-winning design made from premium materials.

Synchronisation with office systems

Immediate reservation directly from the panel

Colour indication of room occupancy

Support for widgets
