OPEN THE DOOR TO INNOVATION

2N IP INTERCOMS, IP ACCESS & SIP AUDIO SYSTEMS
“For 25 years 2N has been on the forefront of access control and telecommunications. We take care to stay on the leading edge with our products, the R&D behind them, and the way we service our customers. We are proud of our growth on global markets and are now number one in IP Intercoms.”

„axis group including 2n have a common goal to contribute to a smarter and safer world. There is an increased customer demand for integrated solutions with open standards that deliver enhanced security. Together with 2N we can meet that demand.“

oldřich stejskal

2N® IP VERSO

Modular intercom is configurable to meet your needs

Bluetooth technology ensures access control to the facility

Intuitive touch display for outdoor use with up to 2000 contacts in the structured list

Wide-angle HD camera with infrared night vision

Easy integration with IP telephone systems using SIP protocol support

Integration with IP camera systems, VMS, and NVR through ONVIF

2N® Mobile Video calls on your mobile phone

RFID smart card reader with NFC support or Fingerprint reader module
**HD VIDEO**
The intercom’s integrated HD camera can send quality images to camera systems, mobile devices or the 2N® Indoor Touch.

**NIGHT VISION**
The intercom’s camera with infrared night vision can record a potential intruder even in complete darkness without the intruder noticing it.

**MODULARITY**
Taking advantage of the intercom’s modularity you can choose a combination that suits your needs. For example, you can interconnect the touch screen with a Bluetooth unit and HD camera.
2N® LTE VERSO

Wireless communication through the LTE network
The ideal solution for retrofit installation in apartment buildings
Calls to mobile devices, 2N answering units and IP telephones
HD camera with night vision and movement detection

Remote configuration and administration through the My2N portal
Compatible with all modules for 2N® IP Verso
Video monitoring of entrance using the 2N® Mobile Video App
Option of combination with IP intercoms in one solution
REMOTE GATEWAY
2N® LTE Verso can be used for remote locations like distant gates or buildings without wired infrastructure where only power source and LTE network is needed.

RESIDENTIAL BUILDING RETROFIT
2N® LTE Verso is ideal solution for installations where by using LTE connection and 2N® Mobile Video service it offers full solution for apartment building communication without need for wired infrastructure.
2N® IP SOLO

Wide-angle HD camera with infrared light and night vision
Easy integration with IP telephone systems using SIP protocol support
Snapshot of the visitor to email
Tamper switch detecting unauthorized device intrusions

Integration with Video Surveillance System
2N® Mobile Video calls on your mobile phone
Easy integration into the home automation system
Luxury IP intercom with flush or wall mounting option
HOME AUTOMATION
Link the intercom to your home automation system via the open API.

PICTURE TO EMAIL
When visitor calls from the intercom, it sends you their snapshot to email.

NIGHT VISION
The intercom’s camera with infrared night vision can record a potential intruder even in complete darkness without the intruder noticing it.
2N® IP BASE

Compact IP intercom with wide-angle HD camera

Fast installation

Durable aluminum frame

Excellent audibility in all conditions

Outputs ready for connecting an electric lock or other equipment

Both one or two buttons options included

Basic model can be extended with a 125 kHz or 13.56 MHz RFID card reader module

Video calls on your mobile phone using 2N® Mobile Video App
SUGGESTED USES

ACCESS CONTROL SYSTEM
With its RFID card reader, the intercom can serve as a part of your access control system.

VIDEO CALLS ON VARIOUS DEVICES
An integrated HD camera ensures high quality videocalls on mobile devices, 2N® Indoor Touch or IP telephones.
2N® IP FORCE

The toughest IP intercom on the market able to withstand the most demanding conditions

Wide-angle HD camera with infrared light and night vision

10W loudspeaker for excellent audibility in loud environments

Integration with IP camera systems through the ONVIF protocol

RFID smart card reader with NFC support and Wiegand interface

Highly durable aluminum housing

Video calls on your mobile phone thanks to 2N® Mobile Video

Easy integration with IP telephone systems thanks to SIP protocol support
SCHOOL BUILDING SECURITY
The intercom is able to lock down school entrances according to pre-set time profiles.

SUPPLY ENTRY AND GROUNDS PROTECTION
In logistics areas no service ramp will be left unprotected.

HOME GUARDIAN
Its high durability and the possibility of video recording make the intercom a reliable guardian of any building entrance.
2N® IP VARIO

Graphics display instead of a large panel of buttons

Easy integration with IP camera systems and access control systems

With 2N® IP Vario you can combine LCD screen, call buttons, keypad, RFID card reader, camera, and relays all in one device

Snapshot of the visitor to email

Buttons with an unlimited lifecycle

Easy integration with IP telephone systems thanks to SIP protocol support

Video calls on your mobile phone using 2N® Mobile Video App

Using the extenders you can easily increase the number of buttons up to 54
VISITOR’S IMAGE ON YOUR PHONE
The integrated camera can transmit a quality image from your doorstep to your mobile phone.

ACCESS CONTROL SYSTEM
The intercom can function as an access control reader.

CONNECTION TO CCTV
The video stream from the intercom can easily be sent to a camera system.
The most durable IP intercom on the market able to withstand the most demanding conditions

Distinctive orange color, easily recognizable in emergency situations

10W loudspeaker for good audibility in loud environments

Easy integration with IP telephone systems using SIP protocol support

Integrates with external IP cameras for video calls

Durable buttons visibly backlit in blue

Highly durable aluminum housing

Tamper switch detecting unauthorized device intrusions
SUGGESTED USES

INFOPOINT IN CITY PARK
A visible and easily operated information point in city parks, relax areas or other public places.

HIGHLY VISIBLE ASSISTANT AT PARKING LOTS
Installed in the parking lot exit it can significantly help in unexpected situations.

SOS POINT
On highways, the intercom functions as a part of an SOS Point, a solution providing emergency communication between drivers and a supervision centre.
**2N® IP UNI**

- Quick to install design
- Durable stainless steel cover suitable for outdoor application
- Output for lock control

Pictograms signalling the status of the intercom

Tamper switch

Easy integration with IP telephone systems using SIP protocol support
EASY COMMUNICATION IN OFFICES
For services entrances and back stairways in offices where it is necessary to ensure simple and safe communication.

INTERCOM FOR PHARMACIES WITH NIGHT WORK HOURS
An easy and effective system for calling personnel during night hours.
2N® INDOOR TOUCH

Luxury design and high-tech processing

7” touch screen

Audio and video communication in HD quality

Video monitoring of 2N IP intercoms

Video voicemail or visitor’s snapshot in case of a missed call

Easy installation and remote administration in large residential apartments

Home automation integration using OS Android support

Support of doorbell button by the apartment or house entrance
RESIDENTIAL BUILDING
2N® Indoor Touch offers excellent monitoring, communications and access control for residential entrances. The device can be installed in any apartment.

STYLISH ACCOMMODATION
You can use 2N® Indoor Touch in your apartment or house as an answering station or to monitor what is happening at your door.
2N® MOBILE VIDEO

Video calls on your mobile phone
Accept the call anywhere in the world
Building entrance monitoring
Open the door remotely
Solution for small residential installations as well as for large apartment buildings

Mobile Application available for iOS and Android
Video preview before call pick-up
Easy configuration and remote administration via My2N.com portal
Calling on more devices like 2N® Indoor Touch or IP telephone
Call on more devices at once
**2N® ACCESS UNIT**

**Bluetooth**

- Different modes for door opening
- Adjustable communication distance
- Encrypted communication with banking security standard
- 2N® Mobile Key app available for iOS and Android
- Free of charge mobile credentials

---

**2N® ACCESS UNIT**

**RFID**

- Version with 125kHz reader - works with EMarine and Proximity cards
- Version with 13.56MHz reader - works with Mifare, DesFire, HID iClass and other
- Possibility to open doors using a smartphone supporting NFC
- Connection of keypad, Bluetooth or fingerprint reader for two factor authentication

---

**2N® Mobile Key app** available for iOS and Android

---

**2N® ACCESS UNIT**

**IK8**

---

**IP54**

---

**ANTI VANDAL**
CONVENIENT ACCESS VIA SMARTPHONE

With our Bluetooth enabled application 2N® Mobile Key you do not have to search for your RFID card anymore. Just approach the Bluetooth unit with your mobile phone in the pocket and touch the unit.

ATTENDANCE SYSTEM

The access unit works as an easy attendance terminal recording all of your employees’ arrivals and departures.
**2N® ACCESS UNIT**

**Touch keypad**

- Highly sensitive touch keypad
- Backlight intensity adjustment
- Acoustic signalization of each touch
- Silent alarm function
- Water tolerance (doesn’t detect false touches)

**2N® ACCESS UNIT**

**Fingerprint reader**

- Absolutely secure and convenient identification method
- Optical sensor suitable for outdoor use
- Spoof fingerprints detection
- Fast matching speed
- Recognizes even wet fingers
PROTECT THE ACCESS TO GARAGE
Protect your garage or parking lot in the office building and allow access only to those, who have their own access PIN code.

TOP SECURITY GUARANTEED
Use the fingerprint reader for places such as banks or labs where the security is crucial.
A combination of two classic access control technologies in one device

Automatic calibration of the keypad preventing detection of false touches (e.g. drops of water)

Adjustable backlighting brightness of the touch keypad

Multi-factor user authentication in areas with a higher security level*

Access using a smartphone in combination with a traditional RFID solution

The 2N® Mobile Key application will transform your smartphone into an access card, free of charge

Encrypted communication with banking security standard

Multi-frequency RFID reader with the option of reading secured HID iClass Seos cards*

* common properties for both units
TRANSITION FROM RFID CARDS TO MOBILE CREDENTIALS
The ideal solution for office buildings where some employees want to start using their smartphones with the 2N® Mobile Key application to gain entry to the building instead of traditional RFID cards.

HIGHER LEVEL BUILDING SECURITY
For entry to a building with a higher level of security such as a bank, the user must prove their identity using a PIN code and their RFID card.
2N® ACCESS COMMANDER

Distributed as an image for server installation (free download from www.2n.cz)

Tool for configuration and management of the access control system*

Administration through an intuitive web interface comprehensible to the ordinary user*

Basic time and attendance system for keeping records of working hours*

2N® ACCESS COMMANDER

Box

Software pre-installed and distributed on mini-PC

“Plug and play” solution - only the power supply and network required

Advanced monitoring of the status of all connected devices with notifications*

Access logs and alarm notifications with snapshots of the visitors*

*All the described functions and behaviour are available on both the specified platforms.
INTEGRATION WITH MILESTONE XPROTECT VMS
An administrator can watch the video from cameras tied up with access logs from 2N® Access Commander via one common interface.

ATTENDANCE TRACKING
2N® Access Commander allows you to track your employees’ attendance on everyday basis. The attendance list can be then exported into .pdf or .csv format and processed further. Also, the data could be sent via API to 3rd party systems.
**2N® SIP SPEAKER**

SIP based loudspeaker for live or pre-recorded announcements

Seamless compatibility with video management software (VMS) and IP PBXs

Internal scheduler for broadcasting preset announcements

Easy installation with a single cable (PoE)

---

**2N® SIP SPEAKER HORN**

Outdoor IP speaker for live and preset announcements across large areas

Loudest IP based speaker on the market (SPLmax 124dB)

Seamless compatibility with video management software (VMS) and IP PBXs using ONVIF and SIP protocols

Easy installation with a single cable (PoE)
DOCTOR'S WAITING ROOM
It lets you play live or pre-recorded messages from an IP connected telephone. A nurse can thus easily make “next please” announcements and the like, right into the waiting room.

ANNOUNCEMENTS INTO PRODUCTION HALLS
Announcements into as many as 12 zones without having to install a server. You can broadcast specific content into individual zones or to the entire system.

LIVE ANNOUNCEMENTS FROM THE VMS
In case an uninvited visitor gets in, you can immediately respond with a live or preset message directly from the VMS and swiftly put off an intruder.
2N® SIP AUDIO

2N® SIP MIC
SIP based paging console for live or preset announcements
Announcements up to 12 zones using multicast support
Remote control of Door locks (or any 3rd party device) using http supported commands
Easy installation with a single cable (PoE)

2N® SIP AUDIO CONVERTER
SIP Audio to analogue audio converter
Seamless compatibility with video management software (VMS) and IP PBXs using ONVIF and SIP support
Broadcasting sounds from Cisco devices using Informacast support
Simple API for system integrators
Ordering numbers, Accessories and other information
