2N® 2Wire

2N® 2Wire is a converter that allows you to connect any IP device in places without an IP infrastructure. You only need to use the existing cable wiring from a doorbell or telephone. What’s more, one cable is all you need for both data transfer and power supply.

**Ethernet including PoE over 2 wires**
Connect any IP device using a two-wire or coaxial cable, even in an analogue environment, or a site with limited IP infrastructure.

**Easy installation**
No more configuring! At each end of the cable you just plug in one 2N® 2Wire unit and connect at least one of them to a power source.

**Long reach**
Powering the IP-connected devices via PoE is possible up to a distance of 220 m, twice the maximum Ethernet specification cable length.
Universal Ethernet ‘extension’
With 2N® 2Wire you’ll get Ethernet even in places with no IP network. You can hook up any IP devices, e.g., 2N IP intercoms.

Robust aluminium housing
Thanks to its aluminium housing the 2N® 2Wire converter is rugged and resistant to mechanical damage.

Utilize existing cabling
2N® 2Wire enables you to make use of existing wiring. You won’t have to lay new cables or do construction work.

Reliability
The converter will not let you down. It is significantly more reliable, in comparison with alternatives, such as a WiFi connection.

Screw-in connectors
2N® 2Wire uses high-quality connectors, which prevents cables from falling out, giving you even more reliability.

Power supply
Included is an adapter with a selectable US/UK/EU plug.

---

**Ethernet Interface**
- Connector type: RJ45
- Speed: 10/100 Base T, half-duplex / full-duplex, auto-negotiation
- IEEE 802.3af/at 40 W, PoE+ compatible

**Extension cable interface (2-wire/UTP)**
- Cable type: 2-wire, Cat 5e, Cat 6 or similar
- Impedance: 25 Ω to 100 Ω
- Transfer range: max. 220 m (720 ft) with Cat 6

**Transfer method**
- Access method: CSMA/CA and TDMA
- Modulation method: Windowed OFDM
- Frequency band: 1.8 MHz to 30 MHz

**LED indicator lights**
- Power supply: Blue – power on
- BNC: Green – connection on
- PoE: Green – connection on

---

**Electrical power supply**
- AC input: 100-240 VAC, 50-60 Hz
- DC output: 48 VDC / 0.84 A-1.3 A
- Characteristics: Uin < 1.1V (L), Uin > 3V (H), max. Uin = 32V

**Mechanical properties**
- Dimensions: 1.57 x 1.57 x 2.95 in, 40 x 40 x 75 mm (h x w x d)
- Weight: 120 g (4.2 oz)
- Material: extruded aluminium
- Operating temperature: 14 to 122°F (-10 to +50°C)
- Storage temperature: -22 to 158°F (-30 to +70°C)

**2N® 2Wire**

**Features & Benefits**
- Universal Ethernet ‘extension’
- Robust aluminium housing
- Utilize existing cabling
- Reliability
- Screw-in connectors
- Power supply

**Technical Parameters**

**Hardware**
- 2N Access Unit – access control unit for building access
- 2N® IP Verso – modular security intercom for the most discerning customers
- 2N® IP Force – arguably the most robust IP intercom worldwide
- 2N® IP Vario – a variable intercom with an elegant design
- 2N® IP Uni – a doorway intercom that is remarkably affordable
- 2N® IP Audio/Video Kit – OEM intercoms designed to fit into your equipment
