2N

TOUCH KEYPAD

MODULE FOR 2N® IP VERSO & 2N® LTE VERSO

A Touch Keypad module presents another option for the 2N® IP Verso. After entering a PIN code, a user can open the door. The PIN code can be either similar for several users or unique for each of them. The Touch Keypad module is suitable for outdoor and indoor installation.

- **Adjustable intensity of brightness**
- **Numeric option for calling**
- **Silent alarm activation**

ORDER NUM.:

01277-001

VARIANTS
